

NOMINATED EMERGENCY SUPPORT MANAGEMENT ASSURANCE DEVELOPMENT (E-NESMAD)

An Offshore Academy Services Division Quality Assurance Initiative

E-NESMAD is a half-day competency & capability assurance service that puts a client's dedicated Tier 2 IMT/EMT through two **"Scenario Based" exercises with Role Play**. Conducted in the client's own EOC/ECC. Designed, delivered and formally facilitated by a disciplined SME from the Offshore Academy staff, E-NESMAD verifies that the Tier 2 Team is maintaining the **Resilience Leadership** required to support an emergency on the company Asset without the time commitment or disruption of a full training programme.

WHO IT'S FOR

- Nominated/Designated Tier 2 IMT/EMT members

WHY E-NESMAD MATTERS

- Contributes to Capability management & maintenance of ER Tier 2 Team competency compliance
- Reinforces "Exercise Culture" & "Strengthens the ongoing Areas for Improvement Process"
- Building CONFIDENCE through practical hands-on exercises with Structured Debriefs

BENEFITS

- Minimal disruption – only a half-day format
- Delivered on-site
- Team-level interactive feedback sessions
- Not an 'audit' but designed to reduce the gaps of the unknown

OUR SERVICE

WHAT E-NESMAD DELIVERS

- Two scenario based (tabletop) exercises, with role players across a half-day delivery
- Conducted at client's own EOC/ECC
- Formal appraisal of the Tier 2 team
- Interactive postmortem & immediate feedback
- Certificate of Attendance & Participation
- Written Report with Outcomes & Findings

NOCN ENDORSED COMPETENCY ASSURANCE

Status Credit (RPL) are awarded towards the participants being able to receive an NOCN (UK) Diploma L4 in NESMAD for IMT/EMT.

NESMAD & EEDC2

- Sits within the IRMR Service Division, alongside NESMAD & EEDC2
- RPL recognised toward full NESMAD Diploma
- CEC applied to formally record exercise outcomes

Resilience Leadership

Practical Scenario Based Competency Assurance Program

HALF-DAY FULLY INTERACTIVE TRAINING

A structured half-day format designed to minimise disruption to individuals in the workplace while delivering a focused, meaningful appraisal of the team's readiness.

Exercises are built around credible emergency scenarios tailored to the client's own assets and emergency procedures and based on credible Major Accident Hazards or Events incidents that could occur on the company asset.

Contributes towards satisfying Regulatory Monthly or Quarterly Drill requirements for the Tier 2 teams.

Activity
